PROFILE

Passionate and highly self-motivated software developer, dedicated to continuous learning and skill development. Successfully transitioned from a background in music education to a proficient full-stack developer. Demonstrated expertise in crafting engaging and interactive applications, encompassing diverse areas such as gaming and social media. Strong people and communication skills developed from years of teaching experience. My portfolio can be seen on louisatkinson.co.uk/portfolio.

PROFESSIONAL EXPERIENCE

Crucible Gaming

Front-end developer

03/2023 – present | Sheffield

- Developing games from scratch according to client specifications using Pixi.js, ensuring high-quality and engaging user experiences
- Successfully porting games to both desktop and mobile platforms, optimising performance and user experience
- Collaborating closely with clients to understand their requirements and implementing features that enhance the overall gaming experience
- Facilitating effective communication and collaboration with artists, musicians, and other team members, resulting in the refinement and improvement of game products.

Kingston Music Service/private lessons

Woodwind teacher

09/2019 – 2023 | London/remote

- Providing personalised music lessons within both individual and group settings
- Students ranging from young beginners (around age six) to experienced adults
- Experience includes teaching students with special needs
- Creating lesson plans tailored to suit the student's needs and goals
- Preparing students for exams and auditions (including to conservatoires), including arranging exams
- Liaising with parents to discuss progress and goals.

EDUCATION

BMus(Hons) 2:1 in Jazz Performance

Trinity Laban Conservatoire of Music and Dance

2015 – 2019 | London
